

Annual Statement of Results report concerning how the institution meets those responsibilities.

Research Integrity Developments and Activities

Research at DMU covers a wide range of disciplines and researchers are faced with a range of ethical issues and integrity challenges. Factors include subject-specific guidance for researchers, ongoing ethical developments (http://www.dmu.ac.uk/research/ethics)

http://www.dmu.ac.uk/research/ethics - http://www.dmu.ac.uk/research-ethics - http://www.dmu.ac.uk/research-ethics (please email ethics@dmu.ac.uk) and attend the annual DMU Research Services symposium on any changes to the ICF for each project

at DMU.

d. Please refer to the Research Ethics Board (REB) website (<http://www.dmu.ca/research-ethics-board>)

2. The DMU Research Ethics Code of Practice (ReCOP), is subject to review and is updated annually. The ReCOP is available on the DMU website (<http://www.dmu.ca/research-ethics-board>) and is also available in French.

3. Faculty and Staff are required to read the Research Ethics Code of Practice (ReCOP) and to complete the Research Ethics Code of Practice (ReCOP) training module. The ReCOP training module is available on the DMU website (<http://www.dmu.ca/research-ethics-board>) and is also available in French.

The Research Ethics Code of Practice (ReCOP) is available on the DMU website (<http://www.dmu.ca/research-ethics-board>) and is also available in French.
